

As Seen on the Mandolin Café Facebook Page, September 2011

**Mandolin Cafe**

This is one we're using now. For us, we like the tuner not being such a huge visual part of the instrument, instead, tucked away and pretty much out of sight. Works well too.

**Planet Waves NS Mini-Headstock Tuner**

[www.mandolincafe.com](http://www.mandolincafe.com)

Designed in cooperation with renowned inventor Ned Steinberger, the NS Mini Headstock Tuner allows musicians to take advantage of an exceptionally low-profile design, highly-sensitive piezo pickup and super-bright back-lit display.
